Career Objective

I want to grow as a web developer by building clean, user-friendly, and meaningful applications. I enjoy working with React.js and modern web tools, and I'm constantly learning new technologies like PostgreSQL to improve as a full-stack developer. My goal is to join a team where I can contribute, learn, and build real solutions that make an impact.

Skills

Technical Skills:

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS, DaisyUI
- **Backend:** Node.js, Express.js
- **Database:** MongoDB (Atlas), PostgreSQL
- **Tools & Platforms:** Vs Code, GitHub, Figma, Firebase, Vercel, Netlify
- **Programming Languages:** C, C++

Interpersonal Skills:

- Team collaboration and leadership
- Effective communication
- Time management
- Adaptability and quick learning

Projects

LearnHive (MERN Stack)

Live Site: LearnHive
GitHub: Client | Server

A platform connecting institutions, tutors, and students with dashboards and course management tools.

- Course management system for tutors and students.
- Secure payment gateway integration.
- Secure authentication and role-based access control.
- Admin dashboard

RaceTrackers (MERN Stack)

Live Site: RaceTrackers
GitHub: Client | Server

A marathon event management platform for organizers and participants.

- Event participant dashboard.
- Organizers can create and customize marathon events with essential det.
- Users can track event details, manage registrations, and receive updates.

CrowdCube (MERN Stack)

Live Site: CrowdCube
GitHub: Client | Server

A crowdfunding platform enabling users to create and support fundraising campaigns.

- Running Campaigns – View and track ongoing fundraising campaigns.
- Add New Campaign – Easily start a new fundraising campaign.
- My Donations – Track donations made to different campaigns.

ProTasker (MERN Stack)
Live Site: ProTasker
GitHub: Client | Server

A task management tool with drag-and-drop functionality and real-time database sync.

- Real-Time Sync – Tasks update instantly across devices.
- Drag-and-Drop – Easy task movement between categories.
- Secure Login – Firebase authentication for safe access.

Winter Clothing Donation
Live Site: Live Site
GitHub: Client

A donation platform connecting volunteers and donors to help distribute winter clothing.

- Connects donors and volunteers to deliver winter clothes.
- Browse campaigns and donate after login.
- Provides warmth to vulnerable communities in Bangladesh.

Education

Daffodil International University (DIU)
B.Sc. in Information and Communication Engineering
January 2022 – Present

Programming Hero
Web Developer (React.js)
June 2024 – March 2025

Extra-Curricular Activities

- **BUET Mechosta:** I participated in the BUET Mecosta poster presentation competition with students from multiple universities.
- **Inter-Departmental Cricket Tournament (2024):** Achieved victory through strong teamwork and outstanding performance.
- **Programming contest (ByteBattle):** Participated in inter-departmental programming contest.

Languages

- **Bengali:** Native or bilingual proficiency
- **English:** Limited working proficiency
- **Hindi:** Elementary proficiency
