Career Objective

I am growing as a web developer by creating clean, intuitive, and purposeful applications. I enjoy working with React.js and modern web technologies, and I am beginning to explore Next.js to further develop my full-stack skills. Recently, I have been working with PostgreSQL to improve my relational database skills. My goal is to join a team where I can contribute, keep improving, and help build things that actually make a difference.

Skills

Technical Skills:

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS, DaisyUI
- **Backend:** Node.js, Express.js
- **Database:** MongoDB (Atlas), PostgreSQL
- **Tools & Platforms:** Vs Code, GitHub, Postman, Figma, Firebase, Vercel, Netlify
- **Programming Languages:** C, C++

Interpersonal Skills:

- Team collaboration and leadership
- Effective communication
- Time management
- Adaptability and quick learning

Projects

LearnHive (MERN Stack)
Live Site: View Site
GitHub: Client — Server
A platform connecting institutions, tutors, and students with dashboards and course management tools.

- Course management system for tutors and students.
- Integration of secure payment gateways.
- Secure authentication and role-based access control.
- Admin dashboard

Technologies: React.js, Node.js, Express.js, MongoDB, Stripe, Firebase, Cloudinary, TanStack Query

RaceTrackers (MERN Stack)
Live Site: View Site
GitHub: Client — Server
A marathon event management platform for organizers and participants.

- Event participant dashboard.
- Organizers can create and customize marathon events with essential details.
- Users can track event details, manage registrations, and receive updates.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase, TanStack Query, React DatePicker, AOS

CrowdCube (MERN Stack)
Live Site: View Site
GitHub: Client — Server
A crowdfunding platform enabling users to create and support fundraising campaigns.

- Running Campaigns – View and track ongoing fundraising campaigns.
- Add a new campaign – Easily start a new fundraising campaign.
- My Donations – Track donations made to different campaigns.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase, Lottie React, React Simple Typewriter

ProTasker (MERN Stack)
Live Site: View Site
GitHub: Client — Server
A task management tool with drag-and-drop functionality and real-time database sync.

- Real-Time Sync – Tasks update instantly across devices.
- Drag-and-Drop – Easy task movement between categories.
- Secure Login – Firebase authentication for safe access.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase, @dnd-kit, React Hook Form

Winter Clothing Donation
Live Site: View Site
GitHub: Client
A donation platform connecting volunteers and donors to help distribute winter clothing.

- Connects donors and volunteers to deliver winter clothing.
- Browse campaigns and donate after login.
- Provides warmth to vulnerable communities in Bangladesh.

Technologies: React.js, Firebase, Tailwind CSS, DaisyUI, AOS, Swiper

Team Projects:

AI integrated Smart Mentoring System (SMS) (PERN Stack)
Live Site: View Site
GitHub: Client
An AI-integrated mentoring platform with real-time communication and intelligent recommendations.

- User registration & login using JWT authentication
- Real-time messaging system for mentor groups, course groups, and discussions
- Automated email and SMS notifications for scheduled meetings (Nodemailer + Twilio)
- Dynamic dashboard with role-based data visualization and analytics
- AI-integrated heatmap-based mentor recommendation system

Technologies: React.js, Node.js, Express.js, PostgreSQL, JWT, Bcrypt, Base64, Twilio, Nodemailer

Catering Connect (CaCo) (MERN Stack)
Live Site: View Site
GitHub: Client
A modern catering service platform connecting customers with professional catering services.

- Booking & Scheduling – Manage orders in real-time.
- Service Provider Dashboard – Caterers manage schedules and orders.
- Secure Payments – Safe online transactions with SSLCommerz.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase, SSLCommerz

Education

- **Daffodil International University (DIU)**
  B.Sc. in Information and Communication Engineering
  January 2022 – Present
- **Programming Hero**
  Web Development (MERN Stack)
  June 2024 – March 2025

Research Thesis

- **AI-Integrated Smart Mentoring System (SMS):** Developing and writing a thesis focused on building a comprehensive academic support platform.

Extra-Curricular Activities

- **BUET Mechosta:** I participated in the BUET Mecosta poster presentation competition with students from multiple universities.
- **Inter-Departmental Cricket Tournament (2024):** Achieved victory through strong teamwork and outstanding performance.
- **Programming contest (ByteBattle):** Participated in inter-departmental programming contest.
- **Secretary of Store & Logistics:** I was in charge of store and logistics management in the Information and Communication Engineering Club.

Languages

- **Bengali:** Native or bilingual proficiency
- **English:** Limited working proficiency
- **Hindi:** Elementary proficiency
